Work Experience

DEC 2024 — PRESENT

Support Engineer Networking & Hardware

Keeps company networks and hardware running: installation, maintenance, troubleshooting, and technical support for users.

Control and support of the BSI C-Icare call center application used by PPU.

MAY 2022 — MAY 2023

IT Administrator

Network control and maintenance, plus quotations, invoices, and company profile.

Kept IT systems stable for daily operations and client needs.

Skills

- Networking & MikroTik
- Linux & Ubuntu Server
- Hardware Troubleshooting
- Python
- Docker, FastAPI & PowerShell
- Administration & Documents
- Home Assistant
- Tailscale

Email Monitoring Project

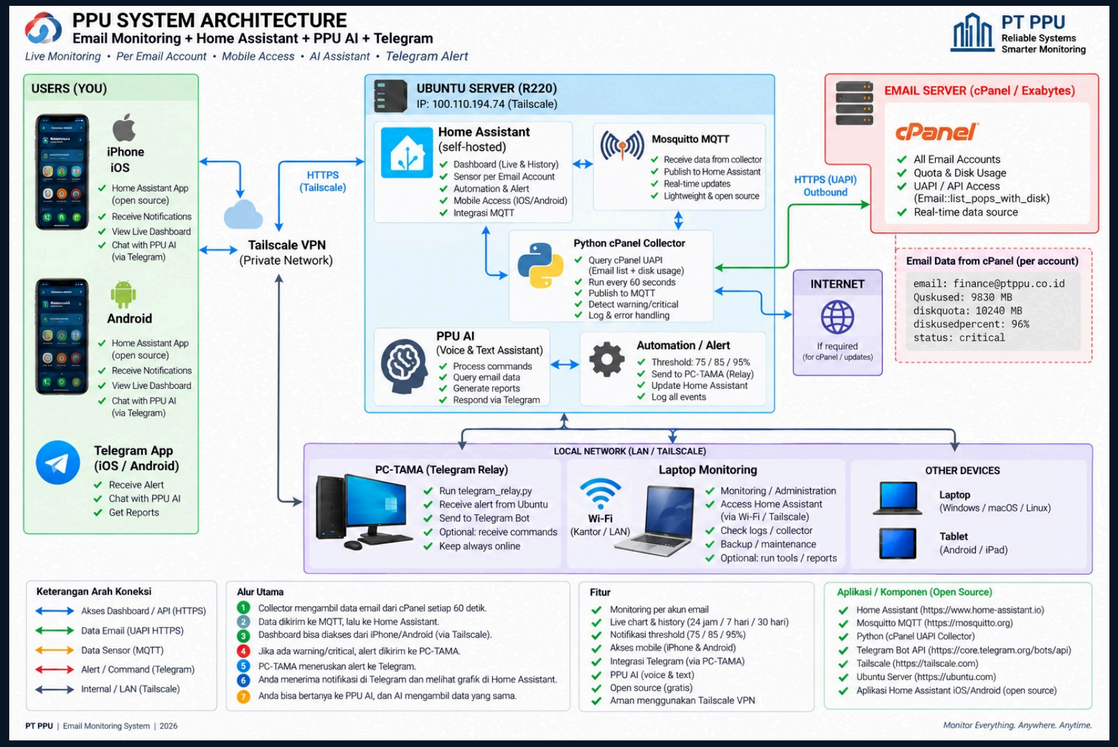

PRIVATE ACCESS VIA TAILSCALE

A Python service on Ubuntu Server checks mailbox usage and quota through cPanel UAPI and sends reports to Telegram. It also connects to Home Assistant, and I reach it privately through Tailscale.
